APRIL IS CREDIT UNION YOUTH MONTH!

Help young ones learn about financial literacy by exposing them early to the idea of sound money habits. Wondering where to start? Here are a few ideas to help get you started:

- **Earning Money:** This fundamental concept helps them understand the value of money and the effort needed to earn it. Encourage them to earn money by doing jobs around the house.
- **Setting Savings Goals:** Help them plan for things they want to buy, like a new toy or game. A simple piggy bank and writing down how much they have saved versus how much they need will help!
- **Money Skills:** Instill money-counting skills using different coins and notes. Depending on their age, introduce them to various payment methods, including cash and mobile payments, explaining how each transaction is completed. Teaching older children the difference between credit and debit cards is also valuable fundamental information.
- **Charity and Gifts:** Encourage them to spend part of their money on charity or buying presents for friends, fostering a sense of generosity and community belonging.

By incorporating these money lessons into your child's routine, you can pave the way toward their financial success. **Get them started today with a savings account at the credit union!**

Don't click! Can you spot an email or text scam?

What To Do if You Suspect a Phishing Attack:

If you get an email or a text message that asks you to click on a link or open an attachment, answer this question: Do I have an account with the company or know the person that contacted me?

If the answer is "No," it could be a phishing scam.

The best approach is to ignore and delete the message.

If the answer is "Yes,"

Contact the company using a phone number or website you know is accurate, not the information in the email. Attachments and links can install harmful malware.

The best way to prevent fraud is knowing your accounts and monitoring account activity daily and **signing up for alerts. Ask us how!**
